

## For Three Governorships:

## Nine Candidates In March Election Race

Members of the Staley Fellowship Club will elect three of nine candidates to the Club's Board of Governors, March 23.

Each of the new governors will serve a three-year term.

The list of candidates, years of service, and job titles, are:

**Robert Cline**, 19 years, clerk, Storeroom.

**Leslie Carr**, 10 years, assistant to supervisor, Methods & Materials.

**Don Carroll**, 28 years, assistant foreman, Millwright Shop.

**Dean DeVore**, 13 years, assistant treasurer, Credit Union.

**John Guysinger**, 25 years, mechanic, Electric Shop.

**W. K. Johnson**, 25 years, mechanic, Machine Shop.

**Paul Kalem**, 22 years, oiler, Inspection & Oil Supply.

**Todd Riley**, 28 years, painter roofer, Yard.

**Ted Taylor**, 13 years, apprentice, Pipe Shop.

Three governors are elected to the Fellowship Club's Board each year. Chairman of the election committee is Lee Lyons, assisted by Herchel Coffman, W. F. Leek, and John Morey.

Polling places and voting hours are:

Plant Cafeteria Lobby—from 5 to 9:30 a.m., and from 11:30 a.m. to 5 p.m.

Extraction Plant—from 4:10 to 4:50 a.m., from 9:45 to 10:45 a.m., and from 5:10 to 5:45 p.m.

17 Building Lobby—from 2:15 to 3:15 p.m.

Administration Building—from 11:30 a.m. to 2 p.m.

A. E. Staley Manufacturing Co., Decatur, Ill.—Form 3547 Requested

## To Preserve Water Supply, Meet Future Needs:

# Four Hurdles Face Oakley Reservoir On 1961 Timetable

Four time-consuming procedural hurdles must be cleared this year if the much-needed Oakley Dam and Reservoir is to begin serving Decatur and Central Illinois by its projected completion date of 1968.

A report and recommendations on the Oakley project from the Army Corps of Engineers' Chicago district office to Washington is expected for this month, clearing the first hurdle in the 1961 timetable.

The remainder of this year's Oakley calendar calls for 1) a review and hearings by a board of engineers of the Army Corps of Engineers in Washington; 2) presentation of the report to the chief of the Army Corps of Engineers and a review by af-

fect states and federal agencies; and 3) transmittal of the report to the Bureau of the Budget.

Only if all these hurdles are cleared this year will the Oakley project proceed to Congress where, if all goes well, the Reservoir could come up for authorization in 1962, according to U.S. Rep. William L. Springer.

Authorization means the Oakley project "exists," and its identity can be lost only if strong and sustained local support fails to develop over the next five years. Decatur support has already been pledged, first by the City Council and recently by the Macon County Board. State officials have also expressed their support. Local and state leaders have emphasized that public understanding and backing for the Oakley Dam and Reservoir is vitally important to its success.

In a letter to Decatur civic representatives, Lt. Gen. E. C. Itschner, USA Chief of Engineers, noted the need for continuing effort and said it is, "extremely important to successful water development for there is little the Corps of Engineers can do without good public support."

When completed, the Oakley Dam and Reservoir would provide a water supply, flood control and recreational area valued at over 27 million dollars.

Local business and industry leaders have testified to Decatur's unquestionable need for additional water storage capacity in seven or eight years to preserve the community's vital water supply and provide for continued growth.

(Picture on page 2)

## Daily Hospital Benefit Upped; Premium Down

An increase in daily hospital room and board benefit to \$16 for members and their dependents in the Staley Fellowship Club was announced last month by the Club's Board of Governors.

The increased benefit went into effect April 1.

The old benefit was \$14 for members, \$11 for dependents.

The Board also announced monthly premium reductions ranging from 2 to 52 cents for 95 percent of the members, and increases ranging from 4 to 16 cents for the remaining 5 percent. A decrease in group life insurance costs was cited by the Governors as making the premium changes possible, with reduced rates for most members.

The March premium was waived for members who had continuous member and member-dependent coverage since April 1, 1960. The Club has waived premiums or paid a dividend each year with the exception of the 1959-1960 fiscal year when it found it necessary to increase reserves for unpaid claims.

In addition to the new daily room and board benefit, an increased allowance of up to \$320 hospital extras was announced for retired members and their dependents of the Fellowship Club. Retired member allowance for extras was \$280; retired member-dependent allowance was \$220.

## Starch Imports Top 335 Million Lbs.

Foreign starch manufacturers shipped over 335 million pounds of duty-free starch into the U.S. last year, according to figures released by Corn Industries Research Foundation.

Last year's shipments to U.S. markets amounted to a 26.6 percent increase over the total of 1959, and a 163 percent increase over that of 1958.

The U.S. corn refining industry, which operated at only

## United Fund Honors Employees' Generosity

Employees in 39 departments of the Company were honored recently for their generous support of last year's Decatur and Macon County United Fund campaign when their departments received certificates based on the percentage of employee participation and size of per capita pledge.

Pledges from Staley employees topped \$39,000 last year. With the company's gift of \$37,500, the all-Staley pledges totaled \$76,519, the largest amount pledged by a single organization.

Overall employee participation last year was 68.2 percent, with the greatest increase shown in the plant. Participation was 100 percent in the Sewing Room, Soybean Division, 13-21 Building and Financial Division.

The United Fund campaign at Staley's was conducted under the supervision of co-chairmen George Prust and Joe Walsh.

Gold seal awards were given for 90 percent or better participation and average gifts of \$10 or more; blue awards for 80 to 90 percent participation and average gifts of \$8 to \$10; red awards for 70 to 80 percent participation, average gifts of \$7 to \$8; and green awards for 50

to 70 percent participation and \$5 to \$8.

The awards by departments were:

Gold Seal—Financial, Soybean, Executive, Legal, Traffic, Grocery Products, Personnel, Corn, and Grain.

Blue Seal—Garage, Machine Shop, Market Development, Manufacturing, Public Relations, Purchasing, Control, Research, and Export.

Red Seal—Tin Shop, 101 Building, and Secretaries.

Green Seal—Chemical Engineering, 29 Building, 12-16 Building, 5-10 Building, Electricians, Instrument & Control, Paint-Roof, Reclamation, Brickmasons, Plant Protection, Shipping Inspection, Pipe Shop, 4-6 Building, 22-47-48-49, 59 Building, Extra Board, Plant Cleanup, and 1 Building.

Holding United Fund blue seal award certificates presented to employees of the garage and machine shop are (seated) foremen **Ken Reed** and **Paul Simroth**; and (standing) chief stewards **Robert Christerson**, **Robert Harrison**.

## Bloodmobile Here April 20:

## Staley 'Bloodmobile' Volunteers Set County Donor Group Record

A Macon County Bloodmobile record for group donors has been established by Staley employees.

In a letter to President E. K. Scheiter, Blood Program Chairman Mrs. R. H. Mueller pointed out that Staley employees had donated 6,101 pints of blood since the program began in 1948.

"We could not observe the 13th anniversary of our county's participation in this Red Cross community service without saying 'Thank You' to the Staley Company, and Staley employees for their tremendous contribution," Mrs. Mueller said.

Mrs. Mueller pointed out that everybody who received blood in

local hospitals during the past 13 years has benefited from the Bloodmobile program.

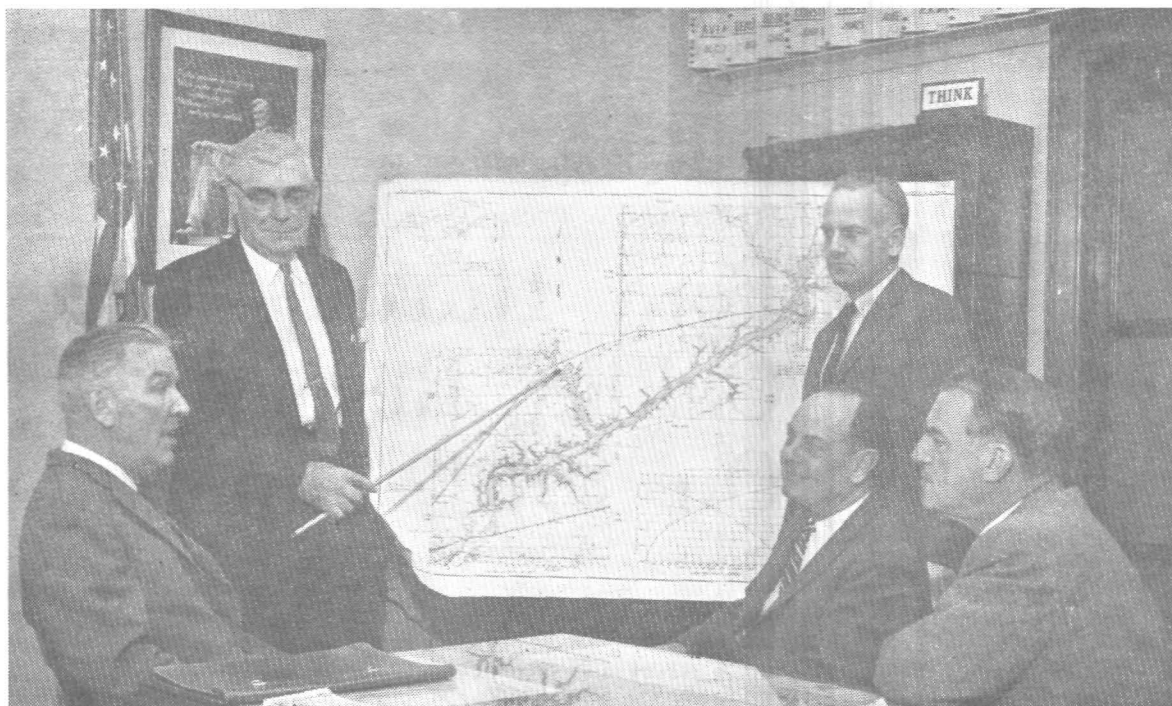

During 1948, 1,166 pints of blood were provided; during 1960, 5,050 pints of blood were donated.

"We sincerely trust we may continue to have the same fine help your company and employees have always given," Mrs. Mueller concluded.

The Bloodmobile will visit Staley's again April 20, and employees are urged to continue their outstanding record as supporters of the program. Details of the Bloodmobile visit will be announced later.

## Outlook For Oakley:

Discussing outlook for Oakley Dam and Reservoir in meeting last December were (l-r) Rep. William L. Springer; Dr. R. E. Greenfield, retired Staley vice president; Roger B. Pogue, president,

Assoc. of Commerce; Mayor Robert A. Grohne; and Frank H. Mueller, chairman, city water advisory committee. Springer targeted 1968 as possible completion date of Oakley project.

## Kessler New Director of Process Engineering

Thirty-one promotions for Staley employees have been announced in recent weeks, headed by those of the ten men pictured below.

**Nat Kessler**, who began his Staley career in 1944 as a chemical engineer in the manufacturing division, has been promoted to director of process engineering. Before his promotion, he was chief chemical engineer. He is a graduate of Washington University and holds BS and MS degrees in chemical engineering.

KESSLER

MAUTERER

BAHLOW

BILYEU

ECKLUND

FISHER

GRASEMANN

HUEBSCHMANN

MALLOY

O'NEILL

PETERSON

WINTER

**Roger J. Mauterer** succeeds Kessler as the Company's chief chemical engineer. He started with Staley's as a junior chemical engineer in 1948, became a senior chemical engineer in 1959. He graduated from the University of Illinois with a BS degree in chemical engineering.

**Elvin F. Bahlow**, a 30-year Staley veteran, was promoted to foreman, Small Machine Shop. A native of Springfield, Ill., his first job with the Company was in the Print Shop. He has worked in the Machine Shop since 1944.

**Robert E. Bilyeu**, promoted to assistant foreman, Plant Protection, began his Staley career on the Extra Board in 1950. Before joining Plant Protection in 1951, he worked in 20 Process and the Corn Oil House.

**Edward E. Ecklund** began his career on the Extra Board in 1942, was promoted last month to assistant foreman, Machine Shop. A native of Sullivan, Ill., he has worked in the Machine Shop since 1947.

**M. L. Fisher**, promoted to foreman, Plant Protection, is a 33-year Staley veteran. Hired as a carpenter helper, he joined Plant Protection in 1942.

**Paul Grasemann**, hired in 1959 as a development chemist, has been promoted to senior development chemist in applications research. He has BS and MS degrees from New York University.

**John W. Huebschmann** has been promoted to senior devel-

opment chemist, applications research. A native of Baltimore, he has a BS degree from John Hopkins.

**Walter B. Malloy, Jr.**, promoted to assistant labor relations supervisor, joined Staley's as a management trainee. He is a native of Sullivan, Ill.

**Owen W. O'Neill**, named chemical sales supervisor, joined the Company early last year as a management trainee. He is a native of Chicago.

**Evart F. Peterson** has been promoted to packaging foreman, Syrup House. A graduate of Iowa State College, he joined Staley's as a time study man.

**Donald L. Winter**, promoted to technical assistant, Corn Division, first worked for Staley's between school semesters. He is a native of Decatur.

Other promotions include:

**Lila Bay**, clerk, office of facilities planning to secretary, Grocery Products.

**Stephen Bridgman**, messenger, Office Services to paper cutter and jr. machine operator, Office Services and Warehousing.

**William L. Budds**, teletype and quotation ticker operator, Grain to chief clerk, Cost Control and Analysis.

**Patrick J. Chalmers**, messenger, Office Services to clerk, Personnel Training.

**Daniel Comp**, clerk, Elevator Section to process service clerk, Engineering, Process Service Section, Manufacturing.

**Robert L. Davis**, retail salesman to territory manager, Grocery Products.

**Ruth Fifer**, receptionist, Credit Union to senior clerk, Personnel.

**Nathan Foreman**, messenger, Office Services to physical inventory clerk, Manufacturing Production.

**Donna Gatons**, junior clerk, General Ledger Accounting to file clerk-typist, Market Development.

**Lavonne Helming**, junior sales expense clerk to statistical clerk, Office Services.

**E. Jean Jones**, accounts receivable bookkeeper to senior accounts receivable bookkeeper, Financial.

**Alan R. Kimbell**, senior salesman to assistant manager, Corn (Industrial Sales).

**David W. Miller**, soybean statistical clerk, Cost and Analysis to teletype and quotation ticker operator, Grain.

## Staley Drivers 'No Accidents' In 716 Years

Staley salesmen and other Company fleet drivers piled up an equivalent of 716 years accident-free driving during 1960, according to an Insurance department fleet safety bulletin.

The report showed that 139 drivers qualified for safe-driving awards last year, ranging from Staley's safest drivers—H. A. Mitchell and W. L. Venter, each with a 24-year safety record—to those drivers with one-year safety records.

Five drivers had 15 or more years without a chargeable accident, 17 had 10-to-14 year safety records, and 33 had 5-to-9 years of safe driving.

Following is an honor roll of drivers with more than five years of accident-free driving:

24 Years	
H. A. Mitchell	W. L. Venter
19 Years	
Paul J. Braun	
18 Years	
D. J. Schneider	J. A. Stigers
16 Years	
H. J. Skane	
15 Years	
J. M. Stewart

J. F. Krause	F. G. Munroe
R. T. Murray	
12 Years	
J. H. Duke	F. S. Roman
H. J. Wallner	H. J. Williams
11 Years	
H. C. Campbell	E. F. Miller
W. E. Trennepohl	
10 Years	
E. F. Beauregard	J. S. Copeland
R. J. Fisk	

## Product Introduction 'New Mothers' Receive Coupons

Over a million and a half new mothers will receive a gift this year from Staley's in the form of redeemable coupons on "Sta-Puf" laundry rinse and "Diaper-Sweet" diaper washing deodorizer.

The coupons will entitle them to a free 24-ounce package of "Diaper-Sweet" and a substantial price reduction on a bottle of "Sta-Puf" rinse.

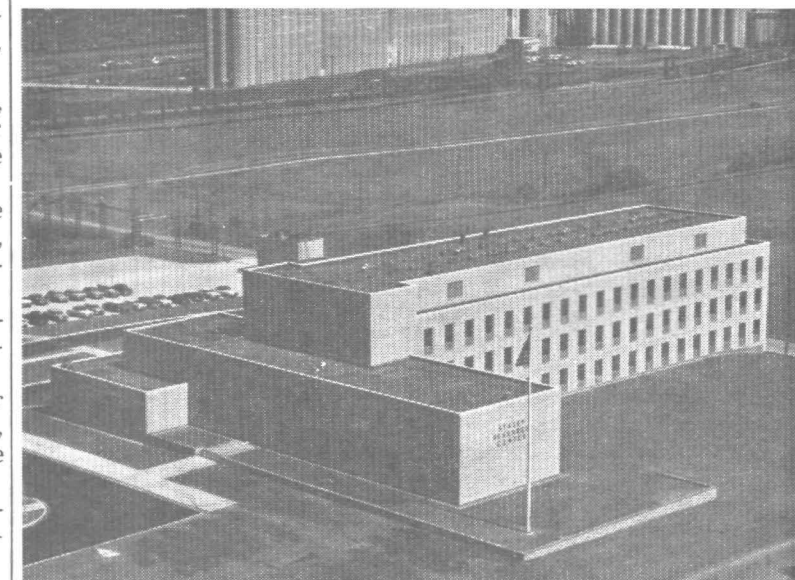

The "Diaper-Sweet" brand product was recently added to the Company's grocery products line under an arrangement with Bu-Tay Products, Ltd., of Los Angeles.

Staley employees also received product coupons this month, entitling them to samples of "Sta-Flo" spray starch, "Diaper-Sweet," and "Raindrops" water softening compound, another new Staley product under the arrangement with Bu-Tay Products. Employees were urged to redeem their coupons as soon as possible.

9 Years	
H. T. Craig	F. J. Kekeisen
J. F. Mack	John Stetz
8 Years	
R. J. Douglas	W. J. Maginn
Donald Miller	H. A. Sosinski
7 Years	
William Brennan	H. H. Ector
H. G. English	A. J. McCown
W. C. Rice	E. H. Schrader
J. C. Stoutenborough	J. F. Walsh
6 Years	
Charles R. Bell	John Bolas
Kenneth L. Cann	H. R. Hiser
Lonnie McCall	J. W. Rose

## Foothold On The Future:

### Research Center Occupied

**Alan Phillips**, salesman to senior salesman, Corn (Industrial Sales).

**Judith Richardson**, junior transcribing machine operator, Office Services to clerk-steno, Traffic (Export Transportation).

**Janet Strocher**, research secretary, Research, to legal secretary, Law.

**Albert D. Summers**, technician to senior testing specialist, Chemical Research, Evaluation Group.

**Noble Tartar**, clerk, Personnel Training to price clerk, Purchasing.

**Myra Taylor**, duplicator operator, Manufacturing, to utility clerk, Office Services and Warehousing.

**Stanley E. Wilbur**, messenger, Office Services to shop clerk, Manufacturing.

Research Division employees occupied the new Research Center this month, completing another phase of a long-range expansion program launched five years ago to assure planned and sustained growth for the Company. More than two years in construction, the Research Center houses 138 laboratory units.

## 100 Celebrate Service Anniversaries:

## Martha Huffman Is Senior Employee With 35 Years

One hundred Staley men and women celebrate service anniversaries during March and April, representing 1,625 years with the Company.

Senior employee among the group is Martha Huffman, 35-year veteran, who began her career March 19, 1926, in the Sales department.

At the end of March, 1926, she became a secretary in the Traffic department. Later, she worked as a rate clerk before being promoted in 1943 to secretary to the vice president, Traffic department. In 1957 her title was changed to secretary to director of Traffic.

She is a native of Little Rock, Ark., and a graduate of Brown's Business College in Decatur.

Other anniversaries are:

## 35 Years

Isaac York, Mercos, Apr. 3

## 30 Years

William Bruner, Garage, Mar. 1

Cleo Hanson, Rsch., Mar. 12

## 25 Years

Fred Bahlow, 20 Bldg., Mar. 14

John Guysinger, Elec. Shop., Apr. 18

Kidwell Hinton, Elec. Shop., Mar. 10

Wilbur Johnson, Mach. Shop., Apr. 22

Raymond McGlade, Mlwrt., Apr. 23

Jerry O'Riley, Maint., Apr. 22

D. J. Schneider, Gro. Prod., Mar. 23

Vernon Van Hook, Mach. Shop., Mar. 6

Clifford R. Wilson, Roundhs., Mar. 7

## 20 Years

Willard J. Blaase, Pipe Shop, Apr. 15

Merle Blair, 118 Bldg., Mar. 4

Wayne Blick, 5-10 Bldg., Apr. 17

O. D. Compton, 17 Bldg., Apr. 16

Clyde Crawford, Tin Shop, Apr. 14

Charles Danford, Roundhs., Apr. 14

Lowell Davis, Chem. Eng., Apr. 16

Donald Dugan, 9 Bldg., Apr. 18

Dale Durnil, Millwrt., Apr. 15

Earl Eschbaugh, Yards, Apr. 17

Ernest Force, Millwrt., Apr. 18

Harold Garner, Pipe Shop, Apr. 17

Barton Gharrett, Eng. Rm., Apr. 15

Raymond Hunk, 101 Bldg., Apr. 17

John Jones, Sh. Insp., April 14

Eugene Kaler, 9 Bldg., Apr. 15

Russell Foster, 29 Bldg., Apr. 24

Charles Glynn, Control, Apr. 23

T. L. Gresham, Research, Mar. 10

Jon Hosler, Extra Board, Apr. 27

Harold L. Martin, Extra Board, Apr. 24

Robert Meador, Ind. Sales, Mar. 1

Henry Staley, Financial, Apr. 6

Ronald Turner, Control, Mar. 13

## Centrifuges Have Big Job In Oil Refinery

Mechanical whirling dervishes called a Podbielniak Continuous Centrifuges are at work on the fourth floor of Staley's Oil Refinery, separating lecithin from crude soybean oil as one of the first steps in the Company's manufacture of "Sta-Sol" lecithin concentrate and "Edsoy" edible oils.

The dictionary describes centrifugal force as, "A force which impels a thing, or parts of a thing, outward from a center of rotation."

Staley's centrifuges work on the same principle, but are mounted on their side rather than in the normal vertical position.

Before the soybean oil can be added to the centrifuges, it is first mixed with acetic acid, then water. This makes the lecithin insoluble. The mixture is pumped through the continuous centrifuges and their whirling force acts like a great magnetic field. The heavier lecithin moves rapidly to the outside of the centrifuges while the lighter oil collects near the center.

The two separated products flow from the centrifuges by pipe lines, the lecithin to the "Sta-Sol" operation, the soybean oil to "Edsoy" processing.

A battery of centrifuges like Staley's can process over 200 tons of soybean oil daily.

**Right—Whirling continuous centrifuge in Oil Refinery separates lecithin from soybean oil as early step in manufacture of "Sta-Sol" lecithin concentrate and "Edsoy" edible oils.**

## How Much Do You Know About . . . Your Group Insurance

The following questions and answers are based on information contained in the booklet, "Group Insurance Plans of The Staley Fellowship Club For Its Members and Their Dependents" More detailed information for members is available at the Fellowship Club office.

**Question: If you become ill or have an accident while on rest days or vacation, do you need to report to First Aid—or to your supervisor if you work outside Decatur—the same as if it were a scheduled work day.**

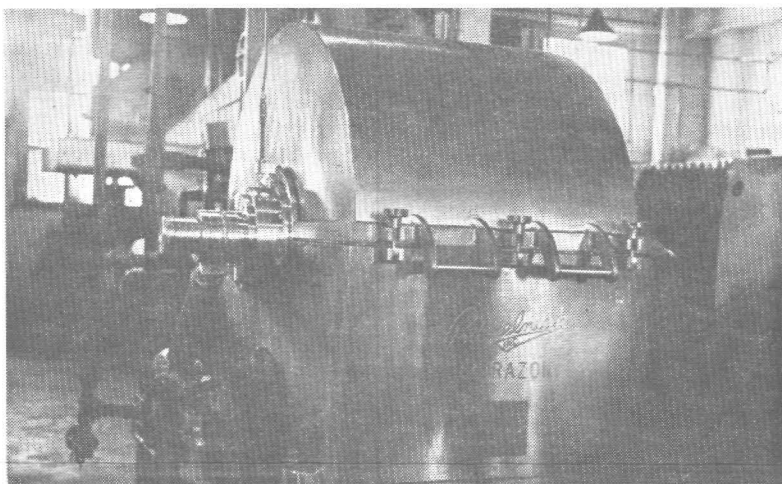

**Answer:** Yes. To be eligible for benefits, you must report to First Aid within 48 hours, either in person or by letter, telephone or telegraph. If you are employed outside Decatur, you must report to your supervisor in the same manner. Too many members fail to report because they believe they will feel better in a few days. This results in a penalty or loss of some benefits. **Paragraph 8, page 5.**

**Question: If you are off duty because of an illness or accident, is it necessary to see a doctor to be eligible for benefits?**

**Answer:** Yes. You must see a doctor within the first three days of the disability even though it might be a rest day or vacation. If you are not under a doctor's care until after the third day, the first day of such care is considered the first day of the disability. **Revised Paragraph 9.B, Page 6.**

**Question: If you have minor surgery—but do not lose time—is it necessary to report it to First Aid?**

**Answer:** Yes. Decatur employees must report surgery, performed other than in a hospital, to First Aid within seven days. If you are employed outside Decatur, you must report such surgery to your supervisor within seven days. **Paragraph 6.B, Page 11.**

## Eight Retire, Represent 257 Years Of Service

Eight Staley veterans retired recently, sharing a total of 257 years of service to the Company.

Senior employee in the group was **Sylvester Ivens**, whose 45-year career began as an assistant shipping clerk in the old starch packing house. In 1922 he transferred to the syrup house where he worked for the next 27 years, first as a clerk, later as an assistant foreman and from 1936 to 1949 as head foreman of the building. Since 1949, he has been a coordinator in production and control.

Only five other employees have reached the 45-year-or-more service mark at retirement. They are R. C. Scherer, 48; Helen Harder, 47; Louis Brand, 46; W. H. Broadbear, 45; and Harry Walmsley, 45.

**Bud Brandon's** career began 35 years ago in the syrup house. He worked his first 15 years in sugar processing, most of the next 20 on the syrup packaging lines, and since 1951 as a line operator.

**Nellie Budrow** retired from 17 Building where she worked the last 19 years of her 24-year career with Staley's. She joined the Company as a cafeteria employee and briefly served in a building maintenance job during World War II.

**Edward J. Buechler** started as an assistant foreman in grain unloading and storage in 1927. All of his time has been spent in this work, the past 10 years as an assistant foreman at Elevators C and D.

**Calvin Emert**, retired as an oiler in lubrication and supply after 32 years, was hired as a laborer. He later worked as a boilermaker's helper, locomotive fireman, and in the starch packing house.

## Lisle Brown Cited For Service To Credit Union

Lisle R. Brown, retired chief chemist, has been cited by the Staley Credit Union for his 26 years of continuous service to that organization.

A charter member of the Credit Union, he served on its committees or as an officer from 1935 until his retirement from Staley's last August. The citation has been made part of the Credit Union's records.

All retiring employees are asked to have their pictures taken.

**Roy Hanley**, 33-year veteran, was hired as a millwright. He later worked as an operator, and repairman in the soybean oil expeller house. He retired as an operator, special feed products.

**Haldane Woolsey**, retired after 21 years as a grocery products sales manager, was hired as a salesman. He later held posi-

tions in the Company's central and western divisions.

**Lyle York** retired as branch office manager, Cleveland, was hired 33 years ago as an industrial salesman. Regarded as one of Staley's "best known salesmen," he worked briefly in Decatur before becoming a district manager in 1948.

## Employees Chose From History's Best:

## 'If I Could Talk With Any Character From The Past ...'

**Clyde Greenwood**  
Mechanic's Helper

If I could do this my first choice would be a meeting and talk with Jesus of Nazareth. I cannot imagine any meeting more thrilling or worthwhile than a meeting with our Good Lord. To have been able to see Him would have been a wonderful experience, but to talk with Him would have been even more wonderful. Yes, I'd choose Jesus of Nazareth if I had the choice.

**Charlie Orr**  
Truck Helper

That's a big question, but I'd pick Franklin Delano Roosevelt. I don't know too much about the man from personal observation, but from what I've heard and read about him, I think he was one of the greatest Americans of modern history. I wish he were here today to help and advise President Kennedy with our problems.

**Nathan Foreman**  
Production Control

That's hard to say as I've never given a question like that any thought. I suppose I could pick any one of a hundred famous people. I'll say I'd like a meeting with Albert Einstein, who was the world's greatest mathematician. I'd hope that by such a meeting a little of his knowledge would rub off on me. I'll say Albert Einstein.

**Harold Sigmon**  
48-49 Building

You will have to give me a minute to think about that. I suppose I'd pick Will Rogers, Sr. He was a great man, one of the best humorists that ever lived, and a man who I think would have made a great President. Because of his popularity I am sure he could have been elected. I've read a great deal about Mr. Rogers and thought many times that I'd like the opportunity to meet him.

**William Hooper, Sr.**  
Plant Protection

That's a teaser, a hard question to answer. I think I'd like a visit with the Wright brothers. Not so much for conversation, but to get their reaction as to how they feel about our present 'Missile Age.' My guess is that they had visions of these things that were to come and I'd like very much to get their reaction to missiles and man's plans to explore space, put a man on the moon.

**Ernie Williams**  
Order Department

I think I'd rather visit with Abe Lincoln than anyone else. He was one of the greatest Americans who ever lived. I've read a great deal about him and the Civil War period. I feel there would not be a United States, as we know it, today if it were not for Mr. Lincoln. In my opinion, he was our greatest president.

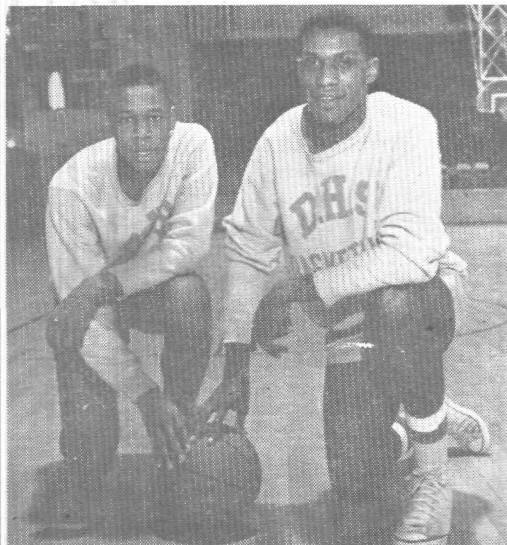

## Decatur Hoop Season Ends With Eight 'Staley Boys' On Varsities

By Leck Ruthrauff

Decatur high school basketball has always had a large following at Staley's. And it's a cinch that there was more than a casual interest in the season just closed, especially from eight "Staley families" as there were eight "Staley boys" playing varsity basketball this year.

In looking over the pictures of these young athletes featured on this page, you will note that for the first time in six years, we did not have a representative on the St. Teresa squad, and we also did not have a player on the MacArthur team.

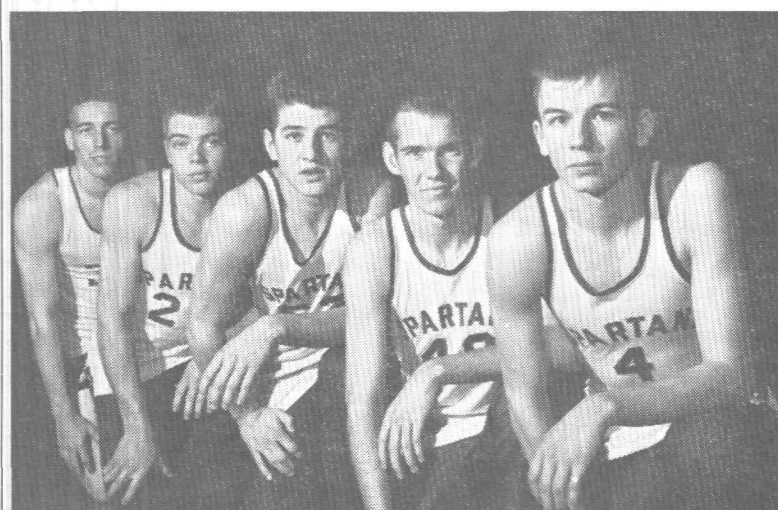

None of the schools had particularly outstanding won-lost records this year, but it is interesting to note that Lakeview, which had the best season—14 wins against 10 losses—also had five of our boys on the varsity squad. Also of interest is the fact that St. Paul Decatur, this year's Regional champs, list two "Staley boys" on the first team. The "Reds" finished below the .500 mark for this season, 12 victories against 13 defeats. Eisenhower, the third team with a Staley son, closed the season with 9 won, 13 lost. St. Teresa finished with 6 wins, 15 losses, and MacArthur managed a 12-12 record.

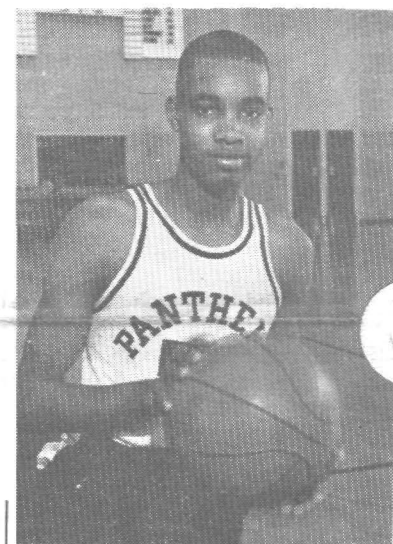

Forwards for Stephen Decatur this year were (l-r) Prentis Jones, son of George Jones, Starch Drying, and Tom Sidney, stepson of William Hayes, Feed Products.

In closing, I wish to congratulate the Stephen Decatur "Reds" on winning the Regional championship, and hope that by the time you read this, Clinton, our neighbors to the north, are wearing the crown as State champs.

(Maybe I should have picked Collinsville).

In Lakeview lineup were (l-r) Dennis Hall (Murrell Hall, Feed House); Bill Moore (step-father Adam Wilkie, Jr. Electrician); Kenny Eschbaugh (Earl Eschbaugh, Yard Dept.); Ron Chaney (Lester Chaney, Plant Cleanup); Gary Deardorff (Robert Deardorff, Syrup Refinery). Only Moore will return to 1961-1962 Lakeview team.

Dick Guyse, senior forward for Eisenhower, is the son of Irving Guyse, Staley Garage employee.

## Staley Television Program Change

"Camouflage" and "Number Please," two newcomers to the ABC-TV network, have been included in Staley's television program scheduling.

Don Morrow is emcee on "Camouflage," a game based on identification of objects camouflaged in a drawing. Morrow is a top commercial announcer, has appeared on "Dragnet," "Gun-smoke," and other network shows.

"Number, Please" has Bud Collyer at the helm, directing a quiz game in which contestants try to win prizes masked by an electronic device. Collyer is an oldtimer for Staley's, supervised "Beat The Clock."

ONCE YOU HAVE MONEY in the credit union, keep it there!

If you need cash, don't disturb your savings. Instead, borrow from the credit union. Rates are low—and you know you'll repay the loan. When you do make a loan payment, add a dollar or two more for savings. That way you'll keep your shares growing.

With few exceptions, your savings are matched dollar for dollar and in case of your death or permanent disability, your loan is "Paid In Full"—with insurance provided by your credit union at no extra charge through CUNA Mutual, the credit union insurance company.

## THE STALEY JOURNAL

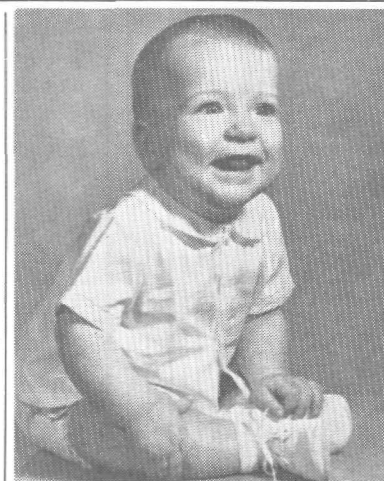

## Photo Album

Before Jennings Heer (1), retired foreman, Syrup Mixing, moved to Florida, some of his friends gathered in the home of Leon Jess for a farewell party. With Heer are retirees George Truebe and Ervin Miller. Other employees from 17 Building were also present.

Lee Lyons, Bd. of Governors, Fellowship Club, holds Christmas card from Pack #9 Cub Scouts and Den Mothers thanking Club for its support during past year. Larry Trolia, 20 S Bldg., and Scouting official, stands at left.

Bright-eyed Matthew Jones, who celebrates his first birthday on March 30, is the grandson of Staley's Melvin Jones, Civil Engineering department. His mother is a registered nurse at Decatur & Macon County Hospital; his father is in the construction business.

## Staley's Welcomes
