Stockholders Told of Favorable Outlook

ANNUAL MEETING REPORT—Chairman A. E. Staley Jr. highlights year's events. From left in front, Directors W. B. Bishop, W. R. Boyer, T. B. Butler, R. H. Davidson, N. Kessler, R. J. Murphy, (at center table) Secretary T. V. Fischer, Vice Chairman E.

K. Scheiter, Mr. Staley, President D. E. Nordlund, Counsel T. W. Samuels, (to right) H. D. Wright, A. R. Staley, R. K. Schell, R. L. Rollins and A. Q. Petersen. Mr. Wright and Mr. Petersen are honorary directors.

Chairman A. E. Staley Jr. told stockholders at the annual meeting May 9 that excellent general business, expanded foreign operations and an unprecedented demand for soybean products indicate a continued favorable outlook for the Company.

Reviewing the first six months of the Company's fiscal year, Mr. Staley noted earnings of \$4.55 million were a 34 per cent improvement over the same period a year ago.

These earnings, Mr. Staley said, are a record for the Company, with the exception of the unusual postwar year of 1947 when non-recurring factors enhanced the Company's performance.

"That's a record we can all well be proud of," the Company chairman told some 140 stockholders gathered in the Research Center Auditorium.

Citing factors contributing to this success, Mr. Staley said a record crop of soybeans in the current crop year was accompanied by "a tremendous upsurge in demand from abroad and from the consumers in this country.

"The net result of this was that for the first five months of this fiscal year, which coincides with the crop year, the soybean plant of this Company and the soybean plants of the industry as a whole have operated at absolute capacity," he said.

"During this period, the Company's soybean plant attained production levels that we thought were impossible. But, due to an outstanding performance by our production personnel, these new records were established," Mr. Staley told stockholders.

Of equal importance, he said, was "the almost feverish level of activity in the nation's economy," indicating that the high level of activity enjoyed by the Company is also being enjoyed by virtually every other industry.

In addition, Mr. Staley cited the continued outstanding performance of corn refining operations, aided by completion last year of the large plant expansion program; addition of dextrose to the Company's line of products; good consumer products sales volume; and expanded foreign operations.

He said these factors will continue to affect the Company's performance in the balance of the fiscal year, but that future years' business is beset by many imponderables, such as tax rates, inflation, wage and price controls, and war or peace.

"But the Staley Company is in excellent condition to face the future with confidence," Mr. Staley added.

Besides hearing the progress report, stockholders asked questions and re-elected all 13 Staley directors, then toured the Research Center.

Asmus Bros., Inc.

Detroit Spice Firm Acquired by Staley

Addition of Asmus Bros. Inc., Detroit, Mich., producers of seasonings and spices, is the latest expansion in the Staley Company's growing line of products and services to the food, baking and canning industries.

Chairman A. E. Staley Jr., in announcing the acquisition recently, said the Asmus operations will be integrated into the Company's Vico Products Department, which produces and distributes hydrolyzed vegetable proteins and various other food flavoring compounds.

The Department will be renamed Vico-Asmus Products Department.

He said the addition of Asmus' extensive line of spices will expand the scope and versatility of the Company's Vico Products Department significantly, noting that hydrolyzed vegetable proteins are combined more often with spices than any other food product.

These food flavor-enhancing spices, together with soy sauces and other food ingredients produced in the Decatur plant, round out an extensive line of flavor and spice items, and offer food processors

and bakers the widest spectrum of tastes available.

"The Asmus firm's sales and profits have been moving steadily upward for the past several years, and we look forward to its accelerated growth as part of our larger organization," Mr. Staley said.

Founded some 60 years ago, Asmus Bros. Inc. is a prominent supplier of a broad range of spices and seasonings for use in sausage and other meat products, pickles and a wide variety of canned goods as well as extensive use in baking products.

Located in the northeast Detroit area, the Asmus firm operates one of the most modern spice importing and seasoning manufacturing plants in the country.

Its multi-storied plant complex was constructed in 1962, and features a fully-equipped laboratory and facilities for air-cooled grinding of seasonings and spices, a cold room for incoming spices and seeds, offices and a recently enlarged warehouse area.

Vico Products was acquired by Staley in August, 1964.

This is the modern Asmus Bros., Inc., plant.

'Talent Scouts' Sought

Staley employees are being given the opportunity to be "talent scouts" by the Staley Employment Office, which is offering two shares of Staley Common Stock to any Staley employee who refers a professional level job candidate that is subsequently hired.

This specifically includes college graduate candidates for jobs with the Company in the following fields:

- Chemistry and Research
- Industrial Engineering
- Mechanical Engineering
- Chemical Engineering
- Marketing
- Accounting
- Programming
- Management Training
- Systems Analysis
- Manufacturing Management.

Jim Stocker, employment supervisor, said the employee referral program is being used in an effort to tap a new source of prospective employees because

of the rapid expansion of the Company and the tightest hiring market in college trained people since World War II.

Stocker explained that employees may refer job candidates either by completing the form below and sending it through the Company mail, or by calling him at 566, or Dean Steinkoenig at 360.

A letter will be sent to the person referred explaining that his name has been referred by a Staley employee as a possible job candidate, he said.

All applications by referred persons will be given consideration and will be answered, Stocker said. If the referred applicant is hired following regular employment procedures, the stock will then be awarded to the Staley employee making the referral. Regardless of the outcome, the employee making the referral will be notified of the results.

Staley Officers Re-Elected

All Company officers were re-elected at the Staley Board of Directors meeting May 10, following the annual stockholders meeting the previous day.

Officers re-elected were:

A. E. Staley Jr., chairman

E. K. Scheiter, vice chairman

Donald E. Nordlund, president

Roy L. Rollins, vice president, manufacturing, facilities planning, purchasing, industrial relations, distribution and public relations divisions

Robert H. Davidson, vice president, marketing

L. L. Redshaw, president, UBS Chemical Division

L. E. Doxsie, vice president, corn division

James A. Bralley, vice president, research and development

James W. Moore, vice president, commodities

W. Robert Boyer, vice president, finance, control and corporate information systems divisions

Charles C. Jensch, vice president international

Henry M. Staley, treasurer

Thomas V. Fischer, secretary

Charles S. Locke, controller

Kenneth J. Maltas, Edward C. Lane and Richard A. Frymire, assistant secretaries.

POINT OF INTEREST—Tom Mahoney, Public Relations director points out grain elevators to Mayor Mampei Arai and interpreter from 10th floor view.

Japanese Delegation Visits Office Building

An eight-member delegation from Decatur's sister city of Tokorozawa, Japan, including the mayor and four of his council members, visited the Staley Administration Building May 6 as part of a day-long tour of Decatur industry.

The Japanese delegation was accompanied by Association of Commerce officials, who led the group to various industries around the city.

Most fascinating aspect of the Staley tour to the Japanese was the architecture of the Office Building lobby and the view of the plant from 10th floor windows of the building.

All explanations and exchanges between the Japanese visitors and **Thomas J. Mahoney**, Public Relations director, who led the Staley tour, were through interpreters since none of the Tokorozawa officials spoke English.

With the group as interpreters were two Japanese American Field Service exchange students, who are attending schools in the Decatur area.

The visitors were also very impressed by the Company's 11-million bushel grain elevators, its half-mile long grain conveyor and the overall size of the Company's operations.

In addition to Tokorozawa Mayor Mampei Arai and the four Tokorozawa City Council members, the delegation included the mayor's administrative assistant and two of the sister city's businessmen.

Tokorozawa officially became Decatur's sister city about a year ago through arrangements made by Decatur's People to People organization. Purpose of the arrangement is to promote an interchange of ideas and information for the mutual benefit of the cities involved.

STOCKHOLDER GIFTS—Staley employees, Doris Morgenthaler, second from left, and Beverly Blakeman, fifth from left, handed out grocery products gifts of "Silken Look" and "Sta-Flo" fabric finish to stockholders at the annual meet-

ing May 9. Both products are being test-marketed in new package designs, one under the new name of "Silken Look" and the other bearing the well-established "Sta-Flo" name. Initial reports have been good.

Fifty-Eight Veteran Employees Celebrate Service Anniversaries

Fifty-eight Staley employees celebrated service anniversaries in May, ranging from five to 25 years.

Together, they account for a total of 990 years continuous service to the Company.

For the first time in several months, there were no employees with service anniversaries of more than 25 years. Leading the list for the month were 18 veterans who reached the 25-year mark. Eight of these were 77 Building employees.

Employees who observed anniversaries in May included:

25 Years

John A. Anderson, 77 Bldg.—Pipe Shop, May 5

Russell A. Bergschneider, 111 Bldg., May 31

Roscoe L. Cook, 77 Bldg.—Electric Shop, May 23

Joseph Creamer, 77 Bldg.—Pipe Shop, May 3

Maurice Dappert, 17 Bldg., May 14

Kenneth M. Evans, 77 Bldg.—Pipe Shop, May 6

William Griffin, 19 Bldg., May 3

Robert C. Hackert, Control Lab., May 15

Lewis C. Harpstrite, 44 Bldg., May 8

Shelley Heiland, 77 Bldg.—Pipe Shop, May 23

Ray M. Herron, 59 Bldg., May 23

Watson Hill Jr., Elevator A, May 9

David F. Hite, 77 Bldg.—Pipe Shop, May 7

Kenneth Kennedy, Control Lab., May 2

Herbert Poteet, 77 Bldg.—Tin Shop, May 2

Robert T. Rogers, Boiler House, May 3

Harry Utley, Millwrights, May 23

William Winter, Plant Protection, May 15

20 Years

Thomas H. Boyd, Plant Protection, May 22

Edward R. Boyle, 20 Bldg., May 15

Lewis E. Brown, 77 Bldg.—Pipe Shop, May 20

Dean E. Cox, 77 Bldg.—Store-room, May 3

Anderson Bergschneider Cook Dappert

Evans Griffin Hackert Harpstrite

Heiland Herron Hill Hite

Kennedy Poteet Utley Winter

Allen H. Eaton, 77 Bldg.—Machine Shop, May 27

Harley R. Freeman, 77 Bldg.—Pipe Shop, May 27

Dewey French Jr., Oil Refinery, May 27

Jesse A. Grunden, 77 Bldg.—Pipe Shop, May 22

Fred E. Kochever, Painesville, May 10

Carroll D. Lourash, 101 Bldg., May 21

Howard G. Malone, Oil Refinery, May 8

Floyd G. McElroy, 77 Bldg.—Pipe Shop, May 28

Harold W. Nichols, Plant Protection, May 17

John H. Phipps, 20S Bldg., May 20

Richard L. Swearingen, 77 Bldg.—Pipe Shop, May 27

15 Years

Robert L. Crawford Jr., Industrial Sales, May 1

Edwin F. Schwalbe, 77 Bldg.—Maintenance, May 7

10 Years

Theodore Banning, Inventory Planning & Control Department, May 21

John E. Bird, 17 Bldg., May 2

Donald E. Crawley, Brick-masons, May 16

Cyrus G. Fort, Plant Protection, May 2

Harold R. Gilman, Feed House, May 3

Kenneth D. Glosser, Control Lab., May 17

Darrell L. Goff, Yards, May 14

Dale F. Harper, Engineering & Maintenance Department, May 21

Mary C. Heitz, Engineering & Maintenance Department, May 31

Edward F. Helm, Yards, May 10

William B. Litz, Production Department, May 15

Loren A. Moore, Elevator C, May 16

Beverly J. Seitz, Cashiers Department, May 29

Leon D. Smith, Oil Refinery, May 23

Darrell L. Spicer, Elevator C, May 10

James I. Stinson, 17P Bldg., May 2

Larry L. Thomas, 17P Bldg., May 23

Lee R. Vest, Yards, May 7

George N. Virden, Plant Protection, May 10

5 Years

Roger E. Bogardus, Applications Research, May 8

Bruce L. Dwiggin, Process Engineering & Technical Services Department, May 15

Thomas G. Swift, Applications Research, May 4

Richard A. Taylor, Research Staff & Services, May 22.

Employee's Son Picked For Tour

Edward A. Weiland, son of Edward Weiland, Staley sales service engineer, and Mrs. Weiland, will participate in the 1966 European concert tour of the American Youth Band and Chorus.

The Youth Band and Chorus represents the John Philip Sousa Memorial Association in making goodwill tours of Europe each summer. A senior at Eisenhower High School, Edward has been a member of the school orchestra and band for four years.

APRIL CLEANUP WINNER—Group Vice President R. L. Rollins awards a plaque to Henry Colbert, Mill House, Steep and Elevator A Department foreman, in recognition of the department's having been selected third week's winner in the plant cleanup contest. Department employee Ronald Kornewald holds free dinner tickets which were distributed to other department employees. The department was also named the winner in the monthly contest for best total improvement. A monthly winner will continue to be named through December.

Governor's Appointment

Chairman Staley Named To State Business Group

Appointment of Chairman A. E. Staley Jr. to serve on the newly-created Business Management Study Committee for Illinois has been announced by Gov. Otto Kerner.

A volunteer group, the 11-member committee is composed of business and industrial leaders from throughout the state. The committee was established by Gov. Kerner to study state administration and business practices, enabling it to make recommendations for possible improvements.

In naming Mr. Staley to the committee, Gov. Kerner indicated the group would fill a long-standing void. Illinois has no single agency with overall responsibility for review and updating of administrative and business practices in the state.

First report of the committee is expected by the end of the year.

In addition to Mr. Staley, those named by Gov. Kerner to serve on the executive committee of the Business Management Study Committee for Illinois were:

James W. Cook, president, Illinois Bell Telephone Co., Chicago

Ellwood F. Curtis, president, John Deere & Co., Moline

William H. Franklin, Caterpillar Tractor Co., Peoria

Bailey K. Howard, board chairman of Field Enterprises Educational Corp.

Dr. Herold C. Hunt, professor of education at Harvard University

Homer J. Livingston, board chairman of First National Bank of Chicago

Waldo Mauritz, of Peat Marwick Mitchell & Co., Chicago certified public accountant firm

William Wood Prince, board chairman, Armour & Co., Chicago

Leonard Spacek, board chairman, Arthur Anderson & Co., Chicago

Burnham P. Spann, vice president, Gardner-Denver Co., Quincy, and president of the Illinois State Chamber of Commerce.

Business leaders in communities throughout Illinois will be asked to help finance and staff task forces to help conduct an intensive study of the state government for the purpose of reporting recommendations on how governmental offices can be streamlined in their operations to produce greater efficiency and lower operating costs.

Mill House, Steep and Elevator A Wins April Cleanup Contest Award

Mill House, Steep and Elevator A Department has been selected as the monthly winner for April in the plantwide cleanup contest, according to General Superintendent Nat Kessler.

Although it was announced in the April Staley News that monthly winners would not be determined until May, Kessler said that the results of the April weekly cleanup contests were so gratifying that it was decided to select a winner for the best total improvement during April.

Every employe holding a job title in the department was awarded two free dinner tickets at Swartz Restaurant in addition to the dinner tickets they received for their department being named the third week's winner.

A Swartz pie was awarded to each job title holder in the Electric Shop and Merco Department for their selections as the second and third most improved areas of the plant during the month.

Kessler said there were so many departments which showed improvement during April that it was decided to award runnerup gifts to those which achieved an 80 per cent reduction in CLODS (a word coined for the contest to represent Clutter, Leaks, Overflows and Dirt).

These gifts are a specially designed mechanical pencil and an auto litter bag.

He also announced an additional feature of the monthly cleanup contests for the rest of the year.

"Since the winning departments look good enough that we want to show them off a little, we will give each job title holder in the winning department an invitation for their wife, or husband, to a special program.

"The invitation will entitle the bearer to a tour of the Office Building and a complimentary lunch in the cafeteria, followed by a visit to the winning department," Kessler said.

Departments which showed

an 80 per cent reduction in CLODS during April and their foremen were:

Mill House, Steep and Elevator A, Henry Colbert
77 Building — Electricians, Dean Burdick

6 Building—Merco and 8A, Harold Kibler

Oil Refinery, Delmar Hazenfield

101-102 Buildings and 107-108 Buildings (Preparation and Extraction), Eldo Riedlinger

Starch Drying and Grinding, Earl Beals

Pipe Shop, Dwight James

Corn Oil House and Extraction, Leck Carter

Control Laboratory, Hoyt Coverstone

118 Building—Starch Plant, Charles Jones

17 Building—Bulk Syrup, Ira Cox

5-10 Buildings—Syrup Refinery, Koran Capshaw

Grocery Products Packing and Loading, Harry Atkins

111 Building—Inositol, Floyd Lenover.

Staley Welcomes

Linda F. Bruce, clerk-steno, Specialty Feeds Dept.

Dennis L. Denson, utility lab man, Research Staff & Services

Donna M. Gross, messenger, Office Services

Robert S. Komar, salesman, Grocery Products—Cleveland

Paul V. Nuckolls, salesman, Grocery Products—Atlanta

Charles E. Phegley, messenger, Office Services

Sue A. Pollock, messenger, Office Services

E. Garry Saathoff, engineering draftsman, Engineering & Maintenance Section

George E. Smith Jr., representative, Industrial Sales—Los Angeles

Edward M. Steele, associate analytical chemist, Chemical Research

Carolyn F. Stevens, messenger, Office Services

Helen H. Tolmasoff, secretary, Industrial Sales—Los Angeles.

FOURTH WEEK'S WINNER—Maintenance Superintendent Al Foley, left, congratulates Dean Burdick, Electric Shop foreman, after that department was named the winner of the fourth week of the April plant cleanup contest. Bob Danner, right, Electric Shop employe accepted free dinner tickets for department employes.

TOP CLEANUP FOREMEN—Foremen of departments which achieved an 80 per cent reduction in CLODS are, left to right in front, Dean Burdick, Harry Atkins, Henry Colbert, Earl Beals and Dwight James. Left to right in back are Lester Carter, Hoyt Coverstone, Eldo Riedlinger, Charles Jones, Floyd Lenover, Harold Kibler, Delmar Hazenfield and Ira Cox. Koran Capshaw was unable to be present when photo was taken.

PROGRESS SCHOOL HANDIWORK—Staley employe Glenn Scott and Mrs. Orville Salzman, executive director of Progress School, look over some of the handiwork performed on a small loom by retarded persons at the United Fund supported school.

United Fund Worker

Glenn Scott Spends Off Hours Working For Charitable Groups

Many Staley employes spend their leisure hours working in their yards, pursuing an interesting hobby, playing a stimulating game of golf, or just relaxing in front of television.

Many also give freely of their time and talents to charitable work in the community. We all give to the United Fund in the annual drive, but a number of employes also devote their efforts to helping in other ways.

One of these is Glenn Scott Millwrights, a 32-year Staley employe, who spends many hours off the job doing the kind of work for which there is generally little recognition, but a great deal of personal satisfaction.

Glenn is currently serving on the board of directors of the Illinois Association for the Mentally Retarded, the executive board of the Macon County Association for Retarded Children, (an agency of the United Fund) the board of trustees of Progress School for Retarded Children in Decatur and is first vice president of the Lincoln Parents Association for Retarded Children.

Taking a tour of the Progress School facilities with Glenn recently was a revealing experience. Although the 50 some children and adults which regularly attend the school were gone for the day, the results of their handiwork was very much in evidence.

On one side of a workshop area were a number of attractive baskets made from wallpaper samples. On a large table was a variety of wooden wall plaques, glazed flower vases and ash trays, pot holders and figurines. On two miniature weaving looms were table place mats in the last stages of completion.

"It's very important for the people attending this school to be able to finish one little piece of handiwork like this, and have the knowledge and satisfaction

that they have been able to create something," Glenn said.

"There have been many advances made in educating and training the mentally retarded to be useful persons in society, but there is still a lot to be done. We have about 50 children and adults enrolled in the school, but we should have 150 or more.

"We have a long waiting list, but there just isn't enough room or funds available to handle more than we have now. We need more classrooms, more office space, several additional teachers a larger workshop area and more equipment in the work-

shop so the more trainable people can do advanced work," Glenn added.

The most immediate way that Progress School and the entire mental health program in Decatur and Macon County can be aided in meeting the existing needs is by voter approval of the mental health referendum June 14, Glenn said.

"Staley employes and other residents have risen to the occasion many times in keeping Decatur and Macon County progressive. I hope they recognize the need involved in this referendum," Glenn concluded.

PACKAGING AWARD—Bob Corman, left, and Les Carr display the 1966 Merit Award for Marketing awarded to the Company in competition sponsored by the Folding Paper Box Association of America for its new "Sno-Bol" package. The award described the box as "an outstanding example of progressive packaging." Corman is product manager for "Sno-Bol" and Carr coordinated the design of the box.

17 Employees Advance In Recent Promotions

Seventeen Staley employes have moved ahead in promotions in recent weeks.

Harold T. Craig, who had been Industrial Sales product manager in Southern California for the past two years, has been promoted to district manager at Los Angeles. He has held various posts in Industrial Sales since joining the Company in 1946, including senior salesman in the Kansas City and San Francisco offices.

Louis J. Feriozzi, manierre loader and auto starch loader in 20 Building for the past six years, has moved to shift foreman of packing and loading in the Dry Starch Section. He joined the Company in 1951, starting on the Extra Board and put in a stint at Elevators C & D before moving to 20 Building.

Wayne D. Grotjan has moved from the Millwrights to area maintenance planner in the Wet Milling Section. He started on the Extra Board in 1950, moved to 19 Building in 1959 and joined the Millwrights in 1960.

Otto A. Kurek, 20 Building packaging foreman since August, 1964, has been promoted to 34 Building warehouse supervisor. He joined the Company in 1963 and was a relief foreman in the Dry Starch Section before being named packaging foreman in 20 Building.

Arthur L. Mense has moved from group shift foreman in 34 Building to succeed Kurek as 20 Building packaging foreman. He started on the Extra Board in 1949 and served 15 years as bulk packer, cleaner and loader in 20 Building starch packing and shipping.

Gerald St. Pierre Jr. has been named shift foreman of starch packing and loading after working 15 years in 20 Building as a cleaner, loader, bulk packer and manierre loader. He joined the Company in 1948, starting on the Extra Board.

Clarence E. Wangrow, who has been with the Company for nearly 20 years, has moved to foreman of the Wet Milling Sub Shop. He had been an assistant foreman in the Machine Shop for the past several months and relief assistant foreman in the Engineering and Maintenance Section for a year prior to that. He has put in stints on the Extra Board, in 48-49 Buildings and served as soybean clerk at 101 Building for a year and Standards time-study man for 1 year after joining the Company in 1946.

Other promotions:
Marilyn A. Ater, from messenger, Office Services, to file clerk, Distribution
William O. Bledsoe II, from messenger, Office Services, to clerk, Maintenance

Craig Feriozzi

Grotjan Kurek

Mense St. Pierre

Wangrow

Jon C. Fisher, from utility lab man, Research Staff & Services, to price clerk, Purchasing
Gretchen G. Fritz, from messenger, Office Services, to stenographer, Financial

Patricia M. Hicks, from utility clerk, Office Services, to junior advertising clerk, Grocery Products

Gerald Kite, from hourly to utility technician, Research Staff & Services

Mary E. Leisner, from transcription machine operator, Administrative Services, to senior stenographer, Financial

George W. Lents, from area maintenance clerk, Engineering & Maintenance Section, to area maintenance scheduler, Wet Milling

Marjorie L. Schroeder, from clerk-stenographer, Labor Relations, to secretary to Vice President, International

Marvin P. Zinn, from hourly to assistant foreman-bag room, Dry Starch Section.
