## 1966 Company Sales Reach New High

### 4th Quarter Sales Record Climaxes Outstanding Year

A high level of industrial activity throughout the country and sustained strong demand for Staley products pushed Company sales to a new high of more than a quarter of a billion dollars in the fiscal year ended Sept. 30, the Company's 60th year of operation.

Net sales of \$252,075,000 for fiscal 1966 surpassed last year's sales total by more than \$31 million and brought net income up to \$10,760,000, or \$4.65 a share. This compares with net income of \$8,378,000, or \$3.64 a share, on sales of \$220,946,000 in the 1965 fiscal year.

Climaxing the 1966 fiscal year sales volume were fourth quarter sales of \$69,393,000, the top single quarterly sales total in Company history. It marked the third consecutive quarterly sales record posted this year.

Fourth quarter net income reached \$3,424,000, or \$1.45 a share. This compares with income of \$2,775,000, or \$1.20 a share, on sales of \$60,524,000 in the final quarter of fiscal 1965.

Pacing the advances of the fiscal year just ended were record sales performances by the Corn Division and Grocery Products Division and an outstanding sales year for the Feed Marketing Division. Supporting these sales volumes were record corn and soybean grinds.

In a year-end statement, Chairman A. E. Staley, Jr., and President Donald E. Nordlund noted that the results in each quarter of the fiscal year just ended exceeded those of the same quarter in the previous year, itself a record sales year.

"The outstanding performance in fiscal 1966," they said, "is due to a number of factors, chief of which are the high level of industrial activity in the United States, a very excellent year for soybean operations, an expanded corn grind, and full year's use of the new dextrose plant."

OVER THE TOP—Kent Mittelberg, right, general chairman of the Staley Employees United Fund Drive, points out this year's goal-breaking total to John Stehr, left, chairman of the food and adhesives industries section, and Wayne Martin, assistant chairman of the Staley drive.

#### Employee Participation Up

### Staley United Fund Goal Surpassed

The 1966 Staley United Fund drive has concluded on a highly successful note with employee gifts and pledges totaling \$57,557, easily surpassing the goal of \$54,500.

"Once again, Staley employees have demonstrated the kind of generosity and community leadership for which they have been known in past United Fund drives. I am sure Decatur and Macon County citizens appreciate this generosity," said Kent N. Mittelberg, general chairman of the Staley employees campaign, in announcing the final results.

"I can not commend Staley employees enough for their efforts. This year, more than 9 per cent of the money contributed to the entire United Fund drive came from the Staley campaign. When corporate gifts are not considered, 14 per cent of

the total contributions were from Staley employees, outstanding support in either respect," Mittelberg added.

He also pointed out that the \$57,557 raised this year was 11.8 per cent, or \$6,098, more than the \$51,459 contributed last year. "Still more amazing is that last year's total was up 16.1 per cent, or \$7,148 from the previous year. Thus, gifts from Staley employees have increased nearly 30 per cent from \$44,311 to \$57,557 over the past two years," he said.

Employee participation rose from 81.8 per cent last year to 83.8 per cent this year, and the number of 100 per cent divisions and departments increased from 19 to 25. "This indicates that more and more employees each year are becoming aware of the needs and benefits of the United Fund agencies," Mittelberg said.

In addition to the 25 divisions and departments with 100 per cent participation, there were 16 more which achieved 90 per cent participation or above.

"These results would not have been possible without the help of salaried solicitors and foremen and union steward solicitors. On behalf of the 20 United Fund agencies, I want to thank all those who worked in that capacity and all the employees who contributed so generously," Mittelberg said.

One of the major factors in this year's successful drive was a significant proportion of "Fair Share" participation. Approximately 33 per cent, or one out of every three gifts turned in, was a Fair Share gift. There were 792 such gifts.

This was the first year for the Fair Share program to be conducted among all employees.

ONE OF MANY—Bob Tassinari, Control Division, was one of 1,018 employees to receive flu shots in the first round of the Company-sponsored program. Opal Dick, First Aid does the honors. Schedules for second round shots to be administered sometime in December will be posted soon.

### 1966 Staley United Fund Drive 100% Participation Honor Roll

Executive Division

**CLEANUP AWARD**—General Superintendent Nat Kessler, left, presents a plaque to William F. Fryman, foreman in the I & C Shop, which won the September Cleanup Contest award. At right, A. B. Foley, Maintenance Section superintendent, presents free dinner tickets to Charles Bradley for distribution to department employees. The department joins five previous monthly winners.

**WIVES TOUR SHOP**—William F. Fryman, I & C Shop foreman, showed wives of department employees through the shop and told them about the department's operations. Twenty-four wives turned out for a luncheon and tour of the Office Building and shop.

## 20 Employees Promoted

Twenty Staley employees have moved ahead in promotions in recent weeks.

**John A. Bell**, Industrial Sales trainee working out of the Cleveland District Office for the past several months, has moved up to assistant manager of Export Sales. He joined the Company in June, 1965. A native of Montclair, N.J., Bell is a graduate of William Penn College.

**Rodger E. Bogardus**, an associate applications chemist in the Consumer Products Section for nearly two years, has been promoted to applications chemist. He joined Staley in 1961 as a research technician in Chemical Research. A native of Springfield, Ill., he attended the University of Illinois.

**Joe M. Cheatwood**, a Grocery Products sales representative in the Atlanta District since joining the Company in 1963, has moved up to Grocery Products territory manager A in the Atlanta District. A graduate of the University of Alabama, he is a native of Birmingham, Ala.

**Mae R. Hinderliter**, a 24-year employee at Staley, has moved to forelady of the Sewing Room. She has worked most of her years with the Company in the Sewing Room and the Syrup House.

**Charles T. Kuhn**, Grocery Products sales representative in the Chicago District since he joined Staley in 1963, has been promoted to Grocery Products territory manager AA in the Chicago District. A native of Chicago, he attended Wright Junior College and DePaul University, where he received a B. A. degree.

**David P. Stuckey**, junior auditor in the Internal Auditing Department since joining the Company in 1964, has moved up to senior auditor. A native of Effingham, Ill., he holds a B. S. degree in accounting from Eastern Illinois University.

**W. G. Ware**, Grocery Products retail salesman in the Chicago District since he joined Staley in 1959, has been promoted to Grocery Products territory manager AA in the Chicago District. He is a native of Decatur.

**Ronald V. Willenbrink**, plant loss engineer since April, 1965, has moved up to chemical engineer in the Chemical Engineering Department. He joined the Company in 1963 as a junior chemical engineer. A native of St. Louis, Mo., he holds a B. S. degree in chemical engineering from the Missouri School of Mines and Metallurgy.

Other promotions:

**Marilyn A. Ater**, from filing clerk to billing clerk, Distribution

**Nancy L. Hunt**, from clerk-typist, Salary Administration, to secretary to Insurance Manager

**Arnold G. Kubow**, from assistant payables accountant to cost accountant, Control Division

**Roger L. Murphy**, from messenger, Office Services, to shop clerk, Maintenance

**Mary E. Paxton**, from mail clerk to central supply clerk, Financial

**Judith L. Riedel**, from messenger, Office Services, to filing clerk, Distribution

**Robert A. Rose**, from commodities clerk to assistant payables accountant, Control Division

Bogardus Bell

Kuhn Hinderliter

Willenbrink Stuckey

Cheatwood Ware

**George D. Seldat**, from clerk, Process Service, to junior technician, Chemical Research

**Carolyn F. Stevens**, from messenger, Office Services, to file clerk, Control Division

**Judith C. Tish**, from invoice clerk to brokerage clerk, Control Division

**Carolyn A. Walker**, from file clerk to invoice clerk, Control Division

**Roberta S. Wilcox**, from messenger, Office Services, to mail clerk, Financial

### Military Leaves Granted to . . .

**Paul E. Allgood**, Elevator C & D  
**Duane E. Benedict**, Roundhouse  
**James M. Cobb**, 101 Building  
**Michael W. Crouch**, Garage  
**Max M. Fultz**, Yard Department  
**Jack E. Garren**, 20 Building  
**Jimmie L. Grigg**, Maintenance  
**Dennis E. Hale**, Research Staff & Services

**John L. LeHew**, Elevator C  
**Kenneth D. Long**, Elevators C & D

**Richard C. Phelps**, 101 Building  
**Daniel G. Walker**, 9 Building  
**James E. Wisley**, Quality Control

### Kessler Addresses Illinois Sanitarians

General Superintendent Nat Kessler explained the organization and operation of the plant cleanup contest in an address before the Illinois Association of Sanitarians at a meeting in Decatur Nov. 9.

He illustrated his talk with slides showing the before and after results of the cleanup drive.

## Eight Long-Time Employees Retire

Eight veteran employees have retired to a life of leisure in recent weeks after compiling more than 238 years service at Staley among them.

Collectively, their tenures average nearly 30 years with the Company.

Heading the list in service longevity is **Earl O. Hettinger**, stock and sample clerk in the Control Lab, who completed 43 years at Staley last March. He joined the Company in 1923, starting in the Syrup Refinery. Hettinger put in a year in 17 Building and almost two years in the Feed House as finished products inspector before moving to the Control Lab, where he has served for the past 40 years.

Another long-time employee, **Neta M. Kilburn**, central supply clerk, retired after 40 years service. She joined the Company in 1925 and has worked her entire career in the same area of office operations, starting in the Print Shop, moving to receiving clerk in the Mail Room in 1949 and to central supply clerk in 1962.

**Lester Cummings**, utility driver-Garage, has retired after

Hettinger

Kilburn

Cummings

French

Riddle

33 years at Staley. He has worked in the Garage for the past 14 years as a truck driver and mechanic's helper. Prior to that, he was a rodman and chainman for Civil Engineering for a year and a shoveler at Elevator C for 18 years.

**Arnold French**, rigger leadman in the Yards Department, has retired after compiling 33 years service. He has worked most of his years at Staley in the Yards as a crane operator

and rigger. He joined the Company in 1933, starting on the Extra Board.

**Earl E. Riddle**, deodorizer operator in the Oil Refinery, has retired after 32 years at Staley. Nearly his entire career has been spent in the Oil Refinery, where he has held posts of tank farm tender, lead packer's helper, "Sta-Sol" operator and winterizer operator.

**Harry G. Morgan**, spouter operator at Elevators C & D, has taken retirement after 20 years service. He has worked at Elevators C & D most of his years at Staley as a truck dump operator, drier operator, grain unloading operator and weighmaster. He began on the Extra Board.

**Alta O. Copas**, office janitor, has retired after 19 years with the Company. She joined the Company in 1947 on the Extra Board and has worked there primarily, with periodic assignments in 17 Building.

**Willard A. Carter, Sr.**, spray dry operator in 19 Building, retired with 18 years service. He has divided his years at Staley among 19 Building, Black Warehouse, 48-49 Buildings, Feed House and Oil Refinery. He started on the Extra Board.

DR. LANGLOIS smiles proudly after donning a Scottish tam, one of the gifts he received at a dinner given in his honor Nov. 1 by associates and friends. At right is Wayne Mussulman who made the presentation. Enjoying the moment, at left, are W. F. Allen and Mrs. Langlois.

## Dr. David P. Langlois Retires

The progressive research of the Staley Company stands firmly on a series of discoveries and developments by men like Dr. David P. Langlois, who retired Oct. 31 after more than 34 years service.

Dr. Langlois, whose name appears on 13 Staley patents, has probably witnessed more change in the Company's research efforts than any other person.

"The Company's growth has been phenomenal over the 34 years I have been here and nowhere is it any more noticeable than in research," he said. "In 1932 (the year he joined the Company), three people made up the entire Research Division. We struggled to find even one or two good projects to work on."

"Now, the Research Division has expanded until it contains a broad spectrum of talents and specialists," he said.

Dr. Langlois added that the Research Division has a healthy backlog of projects awaiting active exploration in contrast to the early days of his career.

"Staley has pioneered the modified starches and the enzyme converted syrups and dextrose and now stands as the recognized leader of the entire corn industry in these areas. It has been a tremendous source of satisfaction to be associated with these developments," he said.

A man of diversified interests, Dr. Langlois has been an officer and member of many professional, civic and service organizations.

For example, he was instrumental in founding the Decatur Little Theater in 1937. As president of the Lions Club in 1957, he founded the Travel and Adventure Series, now in its ninth

season. As chairman of the Association of Commerce's Beautification Committee, the annual rose planting program was founded.

Looking ahead, Dr. Langlois predicts: "Whereas in the past the Staley Company has furnished the food industry principally corn syrups, I look forward to the time when it will have spread its new food starches into practically every area of food production too."

"Starch chemistry is still a challenging field. Industry continues to call for new starch concepts, concepts that can expand this plentiful and inexpensive natural polymer into areas now preempted by scarce and costly products, and concepts which can give greater elegance to existing products—especially food products," he added.

Dr. Langlois foresees continued growth and progress for the Staley Company. "We have the talent and know-how to keep ahead of every competitor in the field, even those large companies which have recently entered the starch competition," he said.

### Nichols Given Added Duties

## Eichenberger Appointed To Succeed Dr. Langlois

Appointment of W. R. Eichenberger as director of chemical market development in the Market Development Division has been announced by W. F. Allen, division manager.

Eichenberger succeeds Dr. David P. Langlois, who retired, effective Oct. 31, after more than 34 years service at Staley. (Related story on this page.)

In addition, Allen announced that George K. Nichols, biochemicals section head in the Market Development Division, will assume added responsibilities including coordination of special division projects.

Dr. Langlois will continue his association with the Company indefinitely as a part-time consultant to the Market Development Division and on special assignments from other Company divisions.

Dr. Langlois had been director of chemical market development since November, 1964, and was director of market development services for five years before that. From 1932 to 1959, he was associated with the Research and Development Division, where he held various positions includ-

Eichenberger Nichols

ing group leader of carbohydrates research.

Eichenberger has been food section head in the Market Development Division for the past six years. He joined the Company in 1949 as a research chemist and has held a number of posts in the Research and Development and Market Development divisions since then.

A native of Berne, Ind., Eichenberger holds a B. S. degree from the University of Wisconsin.

Nichols has been biochemicals section head in the Market Development Division since joining Staley in December, 1961. He received a B. S. degree from Penn State University and is a native of Pennsylvania.

## Employee's Twin Sons Win Awards

Dennis and Donald Gentry, twin sons of Mr. and Mrs. Harold Gentry, recently received awards for being the most identical twins in competition at the International Twin Convention in Chicago.

Their father, Harold, is a repairman in the Corn Oil House. Two of their proud uncles Roy Hornback and Joe Gentry, are also Staley employees. Roy works in the Yard Department and Joe works in the Control Lab.

Dennis and Donald were judged the most identical twins in the 14 to 21 age category. It wasn't their first such victory. They also won that title at the International Twin Convention in Minneapolis in 1962 while competing in the 6 to 13 age category.

The twins celebrated their 16th birthday on Nov. 10.

## Manufacturing People Saluted for Performance

Manufacturing employees were saluted by General Superintendent Nat Kessler at the Nov. 7 management staff meeting for their performance in maintaining record production and maintenance levels to keep pace with record demand during the past fiscal year.

Kessler also commended Manufacturing personnel for their "tremendous efforts" in reducing plant sewer losses and "a major breakthrough" in upgrading plant housekeeping while turning out products more efficiently.

"Sewer losses were cut by 40 per cent to beat our goal. Credit here goes to our chemical engineers, night superintendents, Control Lab and every foreman in the plant. It's the only way this job could have been done. It was and continues to be an excellent performance," he said.

Of the improved sanitation results, Kessler said, "Our foreman team took hold of the cleanup contest idea. They and their men have taken real pride in improving the cleanliness of our work areas. A walk through any part of our plant today shows the fine progress being made. We now have a plant we are proud to show to anyone."

In addition to these Manufacturing highlights, Kessler cited outstanding 1966 accomplishments in the Corn Plant, Syrup Refinery, Dry Starch Section, Soybean Plant, Sweetone-Sweetlix Plant, soy sauce and HVP production facilities, the Dextrose Plant and packaging line operations, all of which reached production peaks and contributed to the Company's fine overall results.

Tribute was paid to foremen, supervisors, process workers and the team of engineers who brought dextrose production steadily upward during the Dextrose Plant's first full year of operation.

After recognizing these achievements, Kessler cautioned Manufacturing personnel against resting on their laurels and urged them to gear up for a year of tough price competition in which our unit costs will have to be lowered.

"In view of increasing sales volumes and continued strong competition in our product lines, fiscal 1967 will be another challenging year for Manufacturing," he said. "We met the challenge in the past year. We have a Manufacturing team which can do it again."

## Grace, Goslin, O'Neill Named to Paper Sales Posts

Grace

G. A. T. Moore, department manager.

Grace had been a technical sales representative since joining the Company nearly two years ago, and has nearly 20 years experience in technical sales work in the three territories which make up the Eastern Region.

Prior to joining Staley, he was associated with R. T. Vanderbilt in New York and Pennsylvania for eight years and with Anheuser-Busch in the New England-New York area before that.

Francis X. Goslin succeeds Grace as technical sales representative in the Pennsylvania-New Jersey-Delaware territory. Goslin comes to the Staley Company from the J. M. Huber Corporation where he has been a district representative selling clay, carbon black and silicates in the Minnesota, Wisconsin and Ontario area.

Moore also announced that Hugh G. (Pat) O'Neill has been named to succeed Charles W. Robinson as technical sales representative in the South-Central territory. Robinson resigned to study law at Baylor University.

O'Neill joined the Company in 1959 in Applications Research in the Technical Services Laboratory. A native of Philadelphia, he attended the University of Kentucky and Millikin University and served nearly four years in the Airborne Infantry during World War II.

Following a training program,

Goslin

O'Neill

O'Neill and his family will relocate in the Arkansas-Alabama area.

### Staley Welcomes

Mary J. Berkley, records clerk, Personnel

Judy K. Bohlen, clerk-typist, Salary Administration

Judith L. Borden, technician, Chemical Research

Lana K. Botoner, messenger, Office Services

Donald F. Johnson, sales representative, Grocery Products-Chicago

Charles A. Knorr, engineering draftsman, Electrical & Mechanical Engineering

Harold I. (Tony) Lents, utility clerk, Chicago Clearing House

Helen L. Lesley, messenger, Office Services

Edward D. McGrew, Jr., office supervisor, Chicago Clearing House

Mary L. Medaris, messenger, Office Services

Mary E. Pogue, allowance clerk, Financial

Barbara J. Salapatek, telephone operator-typist, Chicago Clearing House

Dewey E. Shelton, specialty sales representative, Industrial Sales

James F. Simmering, programmer, Systems

Sharon M. Stodulski, keypunch operator, Chicago Clearing House

David L. Van Gorp, cost accountant, Control Division

Eugene D. Wooters, clerk, Terminal Elevators

Paul Howard studies grain board

Staley Profiles

## Paul Howard: 'Never a Dull Moment Being a Grain Buyer'

"Being a grain buyer is one of the most stimulating and challenging jobs in the Company. There's never a dull moment."

That's how Paul E. Howard, grain buyer and transit coordinator in the Grain Division, looks upon his job.

Paul, who will reach the 25-year service milestone at Staley next June, says, "Grain buying is exciting because you're constantly fighting against time. It is challenging because there are so many factors weighing on the market while you're trying to get grain bought at a good price".

After nearly eight years as an assistant grain buyer and nine more as a full-fledged grain buyer, Paul finds this experience valuable in carrying out his job. But to be a sound buyer, he must also keep up with and analyze a steady stream of data such as crop forecasts, weather, supply and demand trends, prices, action of competitors and government agencies and many other pieces of information affecting the market.

His transit duties center on the coordination of grain purchases with sales of finished products. In this capacity, he must be familiar with transit regulations and traffic data, types of grain demanded and advantageous selling areas among other things.

"In my job, I come into contact with many people in other areas of Company operations, and with many others outside the Company. That makes it interesting too," Paul said.

He said one of his most interesting experiences as a grain buyer was working on the floor at the Chicago Board of Trade.

"Unless you've been there, it's hard to imagine what it's really like. The floor is about twice as long as a gymnasium and about three times as wide.

"One of the rules is that the buyers have to yell out their bids and offers, and there are from 800 to 1,000 people on the floor every working day. Well, with all these people yelling out their bids, phones ringing all over the place and the prices changing constantly, it's hectic but very fascinating," Paul said.

He joined the Company in 1942, just out of Indiana University, where he received a degree in economics. A couple of years ago, he decided to return to school for a master's degree, and started toward that goal at the University of Illinois.

"There for awhile, the whole family was going to school," he said. His wife, Mary, was working on a master's degree at Millikin University and their three children, Stephen, Mark and Julie Ann, were all attending Decatur Schools. Paul's wife has since completed the requirements for a master's degree and is now dean of girls at Johns Hill Junior High School.

With all this activity, Paul still found time to pursue his hobby of growing roses. In addition, he has been a mainstay in the Central Christian Church choir for the past 20 years.

His interest in growing roses has grown over the years to where he now has some 200 bushes of several varieties. It also led to his being elected president of the Decatur Rose Society in 1962-63. In that organization's first annual rose show, Paul's Charlotte Armstrong rose was selected for the Queen of the Show Award.

## Fisher Appointed New York Refined Oil Sales Manager

Appointment of Thomas M. Fisher as New York District manager of refined oil sales has been announced by D. F. Rentshler, manager of the Refined Oil Department.

Fisher

Fisher, who has been with the Staley Company since November, 1963, has been assistant to the Export Sales manager in the Overseas Division. A native of Keokuk, Iowa, he holds a degree in business administration from Carthage College.

In his new post, Fisher succeeds Robert D. Stain who was recently named refined oil sales manager with headquarters in Decatur.

# Sixty-Six Veteran Employees Celebrate Service Anniversaries

Sixty - six Staley employees observed service anniversaries, ranging from five to 30 years, in October.

Together, they account for 1,230 years service at Staley.

Leading the list of veteran employees were 17 persons who reached the 30-year milestone during the month. They include the following:

### 30 Years

- Lyle L. Bauman, Elevator C, Oct. 17
  - Carroll L. Burrow, 101 Building Oct. 20
  - Emmett K. Cunningham, Power House, Oct. 17
  - Francis C. Diveley, Machine Shop, Oct. 26
  - Walter F. Gerck, Millwrights, Oct. 26
  - Walter R. Hughes, Tin Shop, Oct. 17
  - Fred D. Lesley, Millwrights, Oct. 20
  - Dale L. O'Bryan, Electric Shop, Oct. 20
  - Luke J. Owens, Electric Shop, Oct. 26
  - Ernest H. Rade, Millwrights, Oct. 24
  - Jesse B. Ray, Roundhouse, Oct. 26
  - Jerry D. Royce, Millwrights, Oct. 17
  - Eldin E. Scroggins, Feed House, Oct. 20
  - Homer D. Shaw, Tin Shop, Oct. 17
  - John M. Tokarz, Feed House, Oct. 20
  - Thomas J. Vigneri, Control Lab., Oct. 17
  - Frank Wakefield, Pilot Plant, Oct. 26
- Other employees who reached service marks of 25, 20, 15, 10 and 5 years in October were:

### 25 Years

- Elza L. Gass, Tin Shop, Oct. 2
- Harvey W. Gollahon, 77 Building-P & R, Oct. 5
- Charles Harvey, Jr., Yards, Oct. 2
- Delmar W. Osborn, Control Lab., Oct. 4
- Wendell F. Wimmer, Industrial Sales, Oct. 23

### 20 Years

- Oliver Boston, Feed House, Oct. 31
- John B. Christian, 75 Building, Oct. 3
- Charles K. Crowell, Electric Shop, Oct. 24
- Robert E. Danner, Electric Shop, Oct. 7
- Harold K. Entrikin, 77 Building-P & R, Oct. 29
- Norris Ford, Jr., 16-116 Buildings, Oct. 10
- Judson B. Guest, Plant Clean-up, Oct. 29
- Wilber Hector, Stores & Reclamation, Oct. 30
- Alonzo A. Karcher, Tin Shop, Oct. 10
- Charles J. Kmetz, 17 Building-Packaging, Oct. 24
- Claude E. Nichols, 5-10 Buildings, Oct. 31
- William C. Pfeifer, 5-10 Buildings, Oct. 7
- Edna A. Powell, Financial, Oct. 1
- John J. Renfro, Garage, Oct. 25
- Harold F. Smith, Labor Relations, Oct. 21

### 15 Years

- Charles R. Alsbury, Jr., Mill House, Oct. 13
- Lawrence E. Beck, Garage, Oct. 2
- Lloyd G. Grace, Control Lab., Oct. 12
- Richard L. Hackl, 101 Building, Oct. 21
- Michael Mignone, Brooklyn Warehouse, Oct. 1
- Bennie L. Norman, Elevator C, Oct. 1
- Judson E. Strong, Jr., Control Division, Oct. 30
- Addie W. Workman, 12-26 Buildings, Oct. 10
- George F. Galligar, 5-10 Buildings, Oct. 30
- Larry E. Lewis, Electric Shop, Oct. 30
- W. F. (Bill) Sprague, Industrial Relations, Oct. 30
- Thomas A. Wheatley, Wet Starch Section Superintendent, Oct. 1
- Verna G. Zeigler, First Aid, Oct. 15
- Robert J. Atkins, Yards, Oct. 12
- Paul W. Boys, 34 Building, Oct. 12
- Raymond L. Drury, Jr., Applications Research, Oct. 18
- Harold L. Force, Jr., Dextrose Plant, Oct. 13
- Willard N. Goff, 111 Building, Oct. 12
- Ramon D. Jackson, Industrial Sales-Kansas City, Oct. 27

Bauman Burrow Cunningham Diveley Gerck

 Mable H. Weatherford, Distribution, Oct. 16

## Dorothy Collins Wins City Bowling Titles

Dorothy Collins, Order Processing Department, won the handicap and scratch singles titles in the recent City Women's Singles and Doubles Bowling Tournament.

Dorothy rolled a 681 handicap series to top her nearest opponent by six pins. Her 597 scratch score was 15 pins better than the runnerup.
